

With no power or water required the Hand Sanitising Station can be placed wherever it is needed, indoors or outdoors. The foot-operated pump allows the user to dispense just the required amount of sanitising liquid with no need for hand contact with the tap, therefore maximising hygiene.

The high capacity unit holds two 5 litre containers of sanitising liquid, keeping the time spent by staff refilling the unit to a minimum and freeing them up to concentrate on other jobs.

#### PRODUCT FEATURES

- The foot-operated unit does not require water or mains electricity to operate, ensuring easy placement anywhere around your premises
- Designed to hold up to 5 litres of sanitiser gel
- Large capacity reduces how frequently the sanitiser gel needs to be refilled, freeing up staff to concentrate on other jobs
- Tap dispenses gel via foot press action, ensuring hygienic operation, with no need for hand contact
- Designed for indoor or outdoor use
- Handles make it quick and easy to move the sanitising station
- Constructed from robust, durable and hygienic stainless steel, making it ideal for use in high traffic areas, and easy to wipe clean
- Storage cupboard for additional 5 litre bottle
- For security, the station has a tethering point and cupboard for housing the sanitising gel
- Attached A4 clip frame allows easy customisation with your own message or logos
- Not supplied with hand sanitising gel
